SUMMARY

Aspiring full-stack developer with a MCA degree. Skilled in front-end technologies like HTML, CSS, Tailwind CSS, JavaScript, and React, as well as back-end tools including Node.js, Express.js, and MongoDB. Passionate about building responsive user interfaces and scalable web applications, with a strong focus on performance and user experience.

PROJECTS

E-Commerce

- Developed a full-stack e-commerce website using the MERN stack, featuring user authentication, product listings, cart management, and secure payment integration.
- Implemented admin dashboard for product, order, and user management, with real-time inventory tracking, color-based stock control, and responsive UI using Tailwind CSS.

Resume Screening Website

Developed a full-stack application using the MERN (MongoDB, Express.js, React.js, Node.js) stack that streamlines the hiring process for recruiters by automating resume screening.

- Parse resumes and extract structured data like skills, education, and experience.
- Match resumes with job descriptions using keyword extraction and text similarity techniques.
- Rank candidates based on relevance, helping recruiters filter out unqualified applications efficiently.
- Enhances hiring efficiency by reducing manual review time and increasing the accuracy of shortlisting

TECHNICAL SKILLS

Languages: HTML, CSS, JavaScript

Framework: Tailwind CSS

Library: ReactJS

Dev Tools: VS Code, Git, Linux, Windows PowerShell

Design Tools: Canva , Figma , Adobe Express
